Intimo — logo directions

Three ways to say “private, consent-first, Prague”. Recommended: **A · The overlap**.

A · The overlap — chemistry only where both say yes

B · The doorway — private, members only, behind the door

C · The signature — editorial serif, the full stop of a sentence

A — two people; only the overlap lights up: chemistry where both say yes. Works as an app icon at any size.
B — a doorway with someone inside: private, members only. Calmer, but reads less clearly as tiny favicon.
C — the serif signature with a full stop: elegant for print and covers; no standalone symbol.

A · The overlap

Wordmark in Plus Jakarta Sans ExtraBold, outlined (no font needed). The first i-dot is ice blue — the one bright spot, like the overlap.

App icon · favicon (heavier strokes below 48 px)

Ice on light #5FAED8

Clear space: keep the height of one ring free on every side. Minimum size: symbol 16 px (use the favicon file), full logo 96 px wide. Don’t stretch, recolour the rings, or put it on busy photos without a dark scrim.
